

Our 46th Year

May 2014

Timberdoodle *Monthly* Doodles

Spring is indeed grand at Timberdoodle!

Those beautiful trout and salmon are rising, and in the coverts, birds are challenging the best of shots. It's been quite busy around here, with everyone excited to get out to the fields with their pups and enjoy the spring sunshine—finally!

Jesse has been busy getting the clays course ready for the hot shots. Upland Kennels is all set for a booked full line up of pups for this spring's training season. This will be great!

Already signing up for the Frostbite!

We have had a very busy winter/ spring calendar- especially starting with our Easter. Just with only 43 intimate guests. Chris Guiry's antique cannons sounded off at the 1:00 luncheon bell, following a piñata beating with the kids (big and small) -complete with candy and gold coins inside. A great feast indeed.

The famous cannons!!

Singing with the ladies.

Then beautiful singers with French and Spanish songs to give you goose bumps. They were so amazing.

Favorite cousin Michael and his wonderful wife Bruce joined us, driving from Washington D.C. with a 1923 Stroud player piano (with all sorts of roller tunes intact).

They so generously donated it for the Clubhouse. Much piano music and singing - this was fun and will now be yet another great Timberdoodle tradition.

With a wonderful visit from the Easter bunny as well- which might have been Dick Cross inside. The kids were terrified to say the least...

All the neighbors called about the noise from the Easter cannons and wanted to be seriously included in the next cannon-fest!

The Easter Bunny visits.

Everyone is excited for the long gun shooting and fowlers event this weekend. Lots of rifles and guns will be here, from the 1700's through the First World War. Member Herman Karl has amassed quite a remarkable collection of original pieces that are quite amazing. They are on display at the Clubhouse during the week for you to see. Join us for a great luncheon and shoot- all guns will be able to be taken to the Clays course for a bit of action.

Fine arms on display.

It's finally gone!!!!

The girls are going wild again this month (and some couples) for a great weekend of target shooting fun and fresh pheasant pies for the “Girls Gone Wild!” weekend. We are looking forward to some more handsome instructors and waiters around the Clubhouse and on the clays course!

Plan on joining us for some fantastic fishing and shooting, and training during the summer in the fields soon. We look forward to all the spring and summer fun with you.

Woodcock Lodge is always open for your peaceful camping and swimming enjoyment. Look to see Jesse’s awesome new granite fire pit he has made for your bonfires- it’s pretty cool.

The beautiful Toth Family!

All the Timberdoodle Team looks forward to seeing you soon!
